

PROFESSIONAL SUMMARY:

Senior Frontend Developer with ~6 years of experience building scalable, high-performance web applications. Specialized in Angular (12+) and modern frontend technologies including Angular CLI, Bootstrap, Kendo UI, jQuery, JavaScript, HTML, and CSS. Proven track record of improving application performance by 30–40%, optimizing UI rendering for large-scale datasets, and delivering responsive, user-centric interfaces. Experienced in Agile and Scrum environments, collaborating effectively with cross-functional teams to deliver quality products on time. Familiar with AI advancements, including Large Language Models (LLMs), and leveraging modern tools to enhance development efficiency.

TECHNICAL SKILLS:

Frontend Development:

- Languages: **HTML5, CSS3, JavaScript, TypeScript**
- Frameworks & Libraries: **Angular (12+), Angular CLI, Kendo UI, Bootstrap 4, jQuery, LESS/SASS, RxJS**
- UI & UX: **Responsive Design, Cross-Browser Compatibility, UI/UX Principles**
- State & Architecture: **Component-Based Architecture, Reusable Components, MVC Pattern**
- Reactive Programming: **RxJS (Observables, Operators, Subscriptions)**
- Performance Optimization: **Lazy Loading, Code Splitting, DOM Optimization**
- Tools & Editors: **Visual Studio Code, Eclipse, Notepad++**

Backend Development:

- Languages: **Java, PHP, C, C++**
- Databases: **PostgreSQL, MySQL**
- Version Control: **Git, SVN**
- Testing & Debugging: **JUnit, Bugzilla**

AI & Developer Productivity Tools:

- LLMs: **GPT, Claude, Gemini**
- AI Coding Assistants: **GitHub Copilot, Cursor**
- Tools: **Antigravity (AI-assisted development)**

Project Management Tools:

- Open Project
- Meister Task

Operating Systems:

- Windows 11, 10, 8.1

Office Packages:

- MS Office 2019 and earlier versions

EXPERIENCE:

Total: 7 Years

1. Senior Front End Developer

Levantare Technology Pvt. Ltd., Chennai - (March 2020 - Present, 6 years)

- Led the development and maintenance of web applications using Angular (19+) and modern web technologies including HTML5, CSS3, TypeScript, JavaScript, jQuery, JSP, and PHP, ensuring adherence to modern web standards.
- Collaborated in Agile Scrum teams, participating in sprint planning, stand-ups, and retrospectives to deliver iterative improvements and enhance project outcomes.
- Designed and implemented responsive web interfaces using Bootstrap and preprocessors such as Sass and Less, ensuring consistent cross-device and cross-browser compatibility.
- Developed reusable UI components and secure web applications using Angular, Kendo UI, and RxJS (Observables and operators), applying Standalone Components, OnPush Change Detection, and Signals for efficient state management and scalability.
- Improved application performance by 30–40% through UI optimization, lazy loading, efficient DOM handling, and performance tuning, including optimizing grid rendering for large-scale datasets to reduce UI lag.
- Integrated RESTful APIs using JSON and HTTP protocols and managed database interactions with PostgreSQL, ensuring efficient data exchange and optimized query performance.
- Utilized Java to troubleshoot backend issues and enhance overall system stability while ensuring seamless frontend-backend integration.
- Conducted unit testing and bug fixing using Bugzilla, maintaining high-quality deliverables and resolving issues efficiently.
- Used Git and SVN for version control, following best practices in branching, merging, and collaborative development.
- Leveraged AI-assisted tools including GitHub Copilot, Cursor, Antigravity, and LLMs (GPT, Claude, Gemini) to accelerate development, reduce boilerplate code, and improve debugging and code quality.
- Utilized OpenProject and MS Excel for workflow management, progress tracking, and performance reporting through dashboards and metrics analysis.
- Mentored junior developers in bug fixing, code reviews, and best practices, improving team productivity and code quality while demonstrating strong ownership and collaboration.

Products:

1. CSA-Pro

- Enterprise-level asset management solution with advanced features for large-scale data handling and reporting.
- Implemented optimized UI components and enhanced performance for complex workflows.

2. CSA-Lite

- Lightweight version of the application focused on simplified asset tracking and faster performance.
- Improved usability and reduced load time for small to mid-scale users.

3. CSA-Onboard

- Developed onboarding modules to streamline user registration, setup, and initial configuration.
- Enhanced user experience with guided workflows and validation mechanisms.

4. CSA-Edition

- Built customizable editions of the product to support different business requirements and client-specific needs.
- Enabled modular feature configuration and flexible UI components.

2. Front End Developer

Attigo Edutech, Chennai - (Mar 2019 – Feb 2020, 1 year)

- Developed JSP pages using HTML, CSS, JavaScript, jQuery, Bootstrap, and AngularJS.
- Performed debugging and bug fixing.
- Conducted development unit testing.
- Tracked issues and progress using MS Excel

Product:

GETS - Global Edutech Solution.

- Developed Admin, Teachers and Student Modules using JSP, AngularJS.

ACADEMIC PROFILE:

1. B.Tech (I.T) :

2012 - 2016

NPR College of Engineering & Technology, Dindigul.

Place : Chennai
